100-Day Legislative Agenda

This schedule translates the Project 2027 priority repairs into a concrete legislative calendar for the first 100 days of the next pro-democracy Congress. It is designed to travel with the resources highlighted on [officials.html](#) and the Project 2027 overview page.

Timeline at a Glance

The timeline favors quick floor wins, visible oversight, and sequencing that keeps the Five Guarantees in front of the public every week.

- **Day 1–10** — Introduce and fast-track floor action on the Emergency Rule of Law Restoration Act and the DOJ & Civil Service Integrity Act. Hold Judiciary and Oversight hearings on presidential immunity claims, OLC policy, and purged inspectors general.
- **Day 11–25** — Mark up the Federal Officer Accountability & Due Process Act and the Free Speech & Anti-Retaliation Act. Secure bipartisan statements from law enforcement, academic, and press-freedom witnesses. Publish public contact logs between the White House and DOJ as an early transparency deliverable.
- **Day 26–45** — Move the Democracy Defense & Fair Representation Act through House Administration and Senate Rules. Coordinate state-level testimony on current mid-decade map attempts. Introduce enabling grants for compliant independent commissions.
- **Day 46–70** — Take up the Secure Elections & Voter Access Act on the floor with a bipartisan registrar roundtable. Release joint DHS/EAC guidance on audit readiness and vote-by-mail tracking before final passage.
- **Day 71–90** — Move the Clean Money & Ethics Enforcement Act. Pair the floor debate with FEC modernization testimony, and publish draft regulations for real-time disclosure and foreign-ownership attestation.
- **Day 91–100** — Conference any outstanding differences, launch the oversight dashboards mandated by the earlier bills, and schedule follow-up hearings on compliance readiness across DOJ, OPM, EAC, and the new FEC structure.

Priority Bills Snapshot

- Emergency Rule of Law Restoration Act — Clarifies that no federal official is above criminal law, removes “official act” shields for election and civil-rights crimes, tolls statutes of limitation during service, and sets expedited three-judge review.

- Federal Officer Accountability & Due Process Act — Requires visible identification and body cameras for federal deployments, documents command approvals, bans off-book detentions, and guarantees 24-hour probable-cause hearings with automatic inspector review.
- Free Speech & Anti-Retaliation Act — Prohibits weaponization of federal power against journalists, academic institutions, civic organizations, and civil servants; codifies a reporter’s privilege with narrow national-security exceptions.
- Democracy Defense & Fair Representation Act — Establishes national anti-gerrymandering standards, limits remaps to once per decade absent court order, funds compliant independent commissions, and grants fast-track standing for voters to challenge unlawful maps.
- Secure Elections & Voter Access Act — Requires voter-verifiable paper ballots, risk-limiting audits, minimum early-voting and vote-by-mail standards, and funds cybersecurity, staffing, and equipment upgrades for local election offices.
- Clean Money & Ethics Enforcement Act — Modernizes the FEC with a nonpartisan tiebreaker, mandates real-time donor and beneficial-owner disclosure, bans foreign-influenced corporate spending, and strengthens Hatch Act and emoluments enforcement.

- [Project2027 Congressional Packet.pdf](#) — committee-ready talking points, pay-for options, and enforcement hooks aligned with this schedule.

- Distribute editable statutory templates (Word/ODF) derived from the Project 2027 bill scaffolds to each committee to reduce Legislative Counsel turnaround times.

Parallel Oversight & Implementation

- Launch “Integrity Week” hearings in Weeks 1–2 on presidential immunity doctrine, politicized prosecutions, and unauthorized federal deployments.
- Reconstitute Inspectors General: nominate replacements for purged watchdogs, require public dashboards of outstanding recommendations, and direct GAO to certify interim compliance.
- Establish cross-agency implementation task forces covering election security, civil-service retaliation, judicial ethics enforcement, and foreign influence tracking.
- Publish monthly scorecards detailing bill introduction, markup, floor passage, and implementation checkpoints to keep voters informed on progress toward the Five Guarantees.

Messaging Notes

- Anchor every press availability in the Five Guarantees, then connect that week’s floor action or oversight hearing to one guarantee.
- Use a consistent call to action: “Authoritarian tactics are already here. Project 2027 passes seven bills in 100 days and restores the rule of law.”
- Encourage members to promote the supporter badge set and pledge so voters can quickly see who is committed to the 100-day deliverables.
