

Project 2027 Candidate Pledge

Five Guarantees. Seven Emergency Bills. One Hundred Days.

Authoritarian tactics are already reshaping our country: presidents claiming immunity, masked agents detaining civilians, civil servants threatened with loyalty tests, and critics punished for speaking. Project 2027 is the emergency answer. It delivers the Five Guarantees through seven ready-to-file bills in the first 100 days of the next Congress.

As a candidate for public office, I pledge to co-sponsor, vote for, and publicly advocate the full Project 2027 priority package:

- Accountability: The Emergency Rule of Law Restoration Act ensures no president or official stands above the law.
- Professional Government: The DOJ & Civil Service Integrity Act protects whistleblowers and blocks Schedule F–style purges.
- Safe Communities: The Federal Officer Accountability & Due Process Act stops secret detentions and guarantees rapid judicial review.
- Free Speech: The Anti-Retaliation Act shields journalists, academics, and civil servants from political punishment.
- Fair Elections: The Democracy Defense & Fair Representation Act ends partisan gerrymanders and empowers independent commissions.
- Secure Voting: The Secure Elections & Voter Access Act mandates paper ballots, audits, and convenient voting options.
- Clean Money: The Clean Money & Ethics Enforcement Act modernizes the FEC, exposes dark money, and bans foreign-influenced spending.

These measures together guarantee: Accountability, Fair Elections, Clean Money, Ethical Courts, and Professional Government.

By signing this document and making it public, I commit to treating 2027 as the democratic emergency it is. I will publicly wear and share the Project 2027 supporter badge and invite voters to hold me accountable to this pledge.
